

# SoCAL

California is the most populous U.S. state with 39 million people, and the third largest state by area. (Quebec is 3.64 time bigger). For this Tour, we head to the Los Angeles area, visiting Beverly Hills, Woodland Hills, and Santa Monica.

These drives were filmed by Robert Stahl of Dollar Driving School in Woodland Hills. Mr. Stahl is the former President of the Driving School Association of California has been teaching driving since 1980. His infectious love of driving and love of this area come through in every drive.

These drives take us through the crazy excess of Rodeo Drive in Beverly Hills, beautiful residential areas of Woodland Hills, Hollywood, and finally to the Santa Monica pier. (Fun Fact: I hold the highest score for the Frogger game at the Santa Monica pier amusement park.)

**Enjoy your Tour!**
