

# MASSACHUSETTS

The Commonwealth of Massachusetts is a state in the New England region of the Northeastern United States. It is the seventh smallest state by land area, but third most densely populated. For this Tour, we head to the vacation capital of Massachusetts, Cape Cod. Each summer the population of "the Cape" swells from 220,000 year round residents to well over 500,000. You need to be on your driving game to navigate the swarms of tourists and sightseers.

These drives were filmed by Cape Cod native Dave Haley, of Grand Prix Driving School in Hyannis. Pay attention to the calm, thoughtful way Dave negotiates the traffic and pedestrians.

These drives take us along twisty, narrow country roads sided with cranberry bogs and sand dunes, through downtown Hyannis, and "off-cape" to the town of Plymouth, known as "America's Hometown."

**Enjoy your Tour!**
